Buyer's Guide

The 2008 edition of Fireworks A-Z Buyer's Guide describes 6,429 consumer (1.4G) fireworks for sale in the United States. The 2008 edition is available only as a PDF file, either on disc by mail, or downloaded from my web site. For each firework in the book, facts about the item (including the item's name, category, brand, item number, number of shots and duration, where appropriate) are listed, followed by my description of that firework's effects and performance. The buyer's guide is 563 pages long, and it contains only text, no photographs. A complete list of the 6,429 fireworks included in the 2008 edition, as well as a sample page from the guide, is shown at my web site, Fireworksland.com.
